Organic Milk Pap Banana Peach

Preparation

Choose amount of water and pap powder depending on age and appetite according to dosage table.

Boil fresh drinking water and leave it to cool down to about 50 °C.

Put the recommended amount of powder (according to table) into a pap dish.

Measure boiled water (according to table), add to powder and stir.

Let it swell until it reaches the required consistency. Check temperature.

The special HiPP ingredients

Per 100 g powder: 41% follow-on milk* (whey powder* partially demineralised), vegetable oils* (palm oil*, rapeseed oil*, sunflower oil*), skimmed milk powder*, rice flour*, whey powder*, vitamin C, iron sulphate, zinc sulphate, vitamin E, niacin, pantothenic acid, vitamin B₁, vitamin A, potassium iodate, vitamin B₆, vitamin B₁₂, folic acid, copper sulphate, vitamin K, sodium selenate, vitamin D, biotin), rice semolina*, skimmed milk powder*, whey powder* partially demineralised, pear juice concentrate*, apple juice concentrate* with low acid content*, 3% peach powder*, 3% banana flakes*, calcium carbonate, vitamin B₁, vitamin A, vitamin D.

*from organic production

Important information

- For the sake of your baby's health it is important to adhere to the instructions for preparation and the quantities indicated.
- Always feed your baby the milk pap using a spoon and prepare it freshly for each meal.
- Seal opened sachet well after using, store at room temperature in a dry and hygienic manner – use up content within 3-4 weeks.
- Please do not warm up the pap in the microwave (danger of scalding!).
- Ensure regular dental care at bedtime from your baby's first tooth onward and do not feed your baby afterwards.

Please pay attention to your baby's balanced diet and healthy way of living.

HiPP Top Quality

- more than 50 years of organic experience
- most stringent control checks in our quality lab which is among the leading ones in Europe
- stricter limits than required by law
- traditional production
- natural organic cereal – without chemical-synthetical treatment or fast acting fertilisers*

What's in it

✓ follow-on milk to suit age

As a basis for our organic milk paps, we use follow-on milk, which meets babies' requirements and is also suitable as an ingredient in paps from 4 to 6 months.

For the sake of your baby's health, follow-on milk contains:

- ✓ **iron** for blood formation and mental development
- ✓ **calcium & vitamin D** for the formation of bones
- ✓ **iodine** for the thyroid gland function
- ✓ **zinc & vitamin C** for the body's own defences
- ✓ **vitamin A** for the immune system
- ✓ **omega-3 fatty acids** important for brain and nerve cells
- ✓ **sun-kissed fruits**
- ✓ **valuable cereals** easy to digest (gluten-free)

What's not in it

- ✗ added sugar¹
- ✗ added colouring*
- ✗ artificial flavouring*
- ✗ preservatives*

*as required by law
¹sugar naturally occurs in the ingredients

HiPP's freshness guarantee: The foil sachet guarantees optimal freshness and aroma protection. This product left our house in perfect condition – please make sure the sachet is undamaged before using. Foil sachet and box must be recycled separately. Store in a dry place at room temperature (max. 25°C). Use up the opened sachet within 3-4 weeks.

HR-EKO-07
EU-/non-EU agriculture

The HiPP organic seal guarantees the highest quality and exceeds the EU organic requirements.

Use

This milk pap is an ideal meal for children being fed weaning food, and is suitable from 4 months to complement breastfeeding or infant formula fed from a bottle. If you want to switch over to using follow-on milk for bottle meals before your baby is 6 months old, please consult with your paediatrician.

If you have any questions concerning your baby's diet
